Breaking down the barriers

Join with us today to change their future!

Introduction:

Voice of youth and children with disabilities are ignored in Sri Lanka. Persons with disabilities face multiple barriers such as - physical, attitudinal, institutional and social to participate fully in the society.

ChildFund is committed to assure full participation of children and youth with disabilities in communities despite their abilities.

Our Contribution

19 health screening camp conducted

3784 children treated and rehabilitated

1848 early detections made

701 assistive devices provided
